Monitoring Assessment

How and when is the project being monitored, changes in data from project implementation to now. Note: one of the WLCI's objectives is to use monitoring data to help inform future projects; please detail how your project monitoring can contribute to the effectiveness of future projects. Please replace all this explanatory text with your own. Text is not limited to this box; it will carry over to the page 2 overflow section.

Youth Employment

If no youth employment text, insert a project photo here. Please replace all this explanatory text with your own. Text is not limited to this box; it will carry over to the page 2 overflow section.

ANNUAL PROJECT REPORT FORM

September 15, Year

Project Title

Project Description

Include all relevant information not covered in the two sections below. Please replace all this explanatory text with your own. Text is not limited to this box; it will carry over to the page 2 overflow section.

Unit Achievement/Deliverables

List activities and accomplishments complete, e.g. X miles of fence replaced, X miles of acres treated, etc. and what work, if any, will continue into the following year. Include total number of deliverables and deliverables split by land ownership. Please replace all this explanatory text with your own. Text is not limited to this box; it will carry over to the page 2 overflow section.

Related Work

Other projects in your project's general area which have contributed to the health of the habitat on a landscape scale. Please replace all this explanatory text with your own. Text is not limited to this box; it will carry over to the page 2 overflow section.

Total Project Cost: \$

Cost for Reporting Year: \$

Total WLCI Funding: \$

WLCI Funding for Reporting Year: \$

Partner Contributions: monetary \$

Partner Contributions: in-kind \$

Note: GIS files are required. Please attach shapefiles, maps and additional photos, if any, when submitting this form to WLCI_WYmail@blm.gov.

The WLCI is a long-term, science-based program to assess and enhance aquatic and terrestrial habitats at the landscape scale in southwestern Wyoming, while facilitating responsible development through local collaboration and partnerships.
